PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of commercial experience building responsive and cross-browser web interfaces. Strong foundation in HTML5, CSS3, SCSS/SASS, BEM and JavaScript (ES6+), with hands-on experience delivering 10+ commercial projects. Experienced in reusable UI components, responsive and SEO-friendly markup, DOM APIs, browser storage, third-party integrations, animations and frontend debugging. Currently expanding expertise in React, TypeScript and Next.js through modern web applications and personal projects. Focused on clean code, maintainable solutions, performance, accessibility and effective collaboration.

CORE SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3.

Styling & UI: SCSS, SASS, BEM, Responsive Web Design, Adaptive Layout, Cross-Browser Development, Accessibility (a11y), SEO-friendly Markup.

Browser & Web APIs: DOM APIs, localStorage, sessionStorage, cookies, MutationObserver, IntersectionObserver.

Animation & UI Libraries: GSAP, CSS Transitions, Keyframes, Swiper, Fancybox, lightGallery, noUiSlider.

Tools & Workflow: Git, GitHub, Vite, npm, Figma, Browser DevTools, AI-assisted Development Tools.

EXPERIENCE

Frontend Developer | **Web Studio Yar** | 2025–2026

Stack: JavaScript, HTML, CSS, jQuery, Git, Figma, Vite, GSAP, Swiper, Fancybox, lightGallery, noUiSlider.

- Built adaptive and cross-browser layouts for 10+ commercial projects using HTML, SCSS/SASS, BEM and JavaScript.
- Developed modular UI components and interactive interfaces with JavaScript and jQuery.
- Implemented animations and micro-interactions using GSAP, CSS transitions and keyframes.
- Integrated Yandex SmartCaptcha and worked with DOM APIs, browser storage, cookies, MutationObserver and IntersectionObserver.
- Configured and extended third-party UI libraries including Swiper, Fancybox, lightGallery and noUiSlider.
- Collaborated with backend developers and designers and used AI tools to automate routine development tasks.

Frontend Developer | **Web studio Itoblaka** | Minsk, Belarus | 2023–2025

Stack: JavaScript, HTML, CSS, jQuery, Git, Figma.

- Improved and extended functionality of a website builder platform.
- Developed frontend projects from scratch using HTML5, CSS3, SCSS, BEM, JavaScript and jQuery.

- Built responsive, valid and SEO-friendly markup with cross-browser compatibility.
- Integrated custom and third-party scripts and fixed frontend bugs to improve interface stability.
- Assisted PHP developers with integration and debugging of frontend/backend interactions.
- Used Git workflows including branching and code review.
